

Taipan

DEFINE EXCELLENCE

Built-all-in Long Range Precision Scope

Team Optisan is proud to present the sweetest scope for uncompromised long range shooting and hunting. The whole design is aimed at providing the best optical performance especially in adverse light conditions, for hunting and target shooting. We have combined this with the required features to make the whole shooting experience as pleasurable as possible.

Extreme Optical Performance

ETE-Microlux™

All Taipan optics are coated with Optisan's in-house ETE-Microlux™ coating to ensure maximum light transmission and distortion-free resolution under all light conditions from close in to extreme distances.

One-Piece Tube Construction, Coil Erector Spring System

one-piece tube

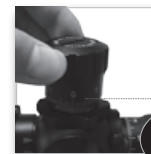

Hiding beneath its sleek streamlined appearance, the aiming system is ruggedly built in a one-piece tube to give shooter a wider Windage & Elevation adjustment range. This sleek rugged housing does not only ensure that the optical system easily handles large caliber recoil proof, it allows the Taipan to sit elegantly on your rifle. A Rugged Coil erector spring system is used to ensure precise repeatable elevation and windage adjustment.

Precise, resettable and lockable turrets

Zero-resettable,
Lockable turret

Windage & Elevation turrets are precision manufactured to give precise, distinct and audible clicks. Turrets are engraved with numbered ladder for ease of adjustment, while the zero is easily reset by our patented easy set system. Zero is resettable by loosening the coin slot, lift up the cap, rotate to set index to zero, push the cap back, screw the center coin slot back in, then set! The perfect field setting system, allowing ease of use and a secure zero setting.

Set Dial Cap to New Zero
Align the dial cap zero to vertical line on indicator ladder marks.

Remember the Turns you are at
The horizontal indicator ladder located right below the rotating dial caps.

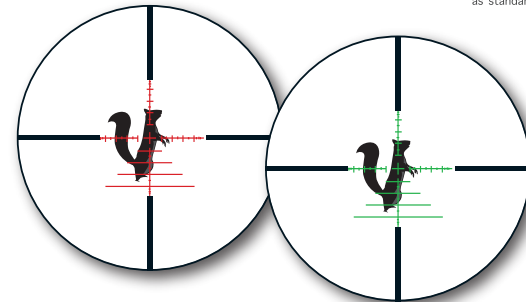

MemoDuo R/G™ (red/green) Push-button Smart Illumination

MemoDuo R/G™
Push-button Illumination

Brilliant MemoDuo R/G™ (red/green) push-button illumination is designed to offer the shooter a perfect reticle picture whatever the light conditions. The 7 brightness settings for each colour are integrated with the side parallax for ease of use. Why is our illumination smarter than the others? This smart illumination memorizes the last brightness setting so Your preferred choice comes straight up every time. Red/Green selection is achieved by a contoured switch on the ergonomic touch padding, allowing selection without removing your eye from the scope, or in the dark.

** All Taipan scopes come with MemoDuo R/G™ illumination as standard.

Accessories Maximum Convenience, Zero Price!

3 inch retractable sunshade built onto the objective-bell to reduce glare in bright sunshine. (Pat. Pending)

Easily attachable, ergonomic one-piece moulded and machined sidewheel included for easy cold-weather or night parallax adjustment.

Optisan's 270° classic metal flip-up covers. (Patented)

All Taipan scope comes with a pair of rugged 30mm aluminium double strap mounts. The double strap design allows strength being spread evenly for accurate installation required for long range shooting.

A quality neoprene pouch is included as standard, make sure your scope stays scratch-free in all weather conditions.

Technical Spec At A Glance

	4-16X50	6-24X56	10-50X60
Magnification	4-16X	6-24X	10-50X
Objective Lens Dia.	50mm	56mm	60mm
Linear field of View (ft@100yds)	27ft-7ft	17ft-4.7ft	8.5ft-2.4ft
Eye relief (inch)	3.2-3.7	3.3-3.6	3.3-2.9
Parallax-free Setting	10yds-∞	10yds-∞	10yds-∞
Adjustment per click (in/100yds)	1/8	1/8	1/8
Max. Windage adjustment range	30'	30'	25'
Max. Elevation adjustment range	25'	25'	25'
Tube Diameter (mm)	30	30	30
Length (in/mm)	15.75/400	17.09/434	17.91/455
Weight (oz/g)	32.97/935	35.47/1,006	38.78/1,100

Taipan 4-16X50

Designed for ultimate versatility, the 4-16 x50 provides a magnification range that will cope with any hunting scenario, from x4 on large animals or in very low light, to x16 for long range shots.

Taipan 6-24X56

The perfect choice for long range target shooting AND day / night long range varmint hunting. This scope provides all the features of the 4-16 while adding approximately 33% more magnification for those that need the extra precision.

Taipan 10-50X60

Perfect scope for Target competition and long range daytime varminting. From 1,000yards benchrest to Field Target with an air rifle, this scope gives you the optics and features to compete with the very best. Its rugged durability mean that it will also be the perfect companion on a long range daytime varmint hunt.
